

## Bagaimana cara melihat CCTV di Android ?

- Download aplikasi untuk melihat CCTV nya di Play Store, contoh: Eagle Eyes (lite)
- Buka aplikasi Eagle Eyes lalu pilih add:

- Kemudian pilih manual untuk melanjutkan settingannya

- Setelah itu isi Title sesuai dengan nama yang dikehendaki. IP address diisi dengan IP publik. Portnya diisi dengan port CCTV. Masukkan username dan passwordnya, kemudian save

The screenshot shows a mobile application interface with a dark background and white text. At the top, there is a status bar with icons for notifications, Wi-Fi, signal strength, and battery, along with the time 14.16. The main title is "Device Info.". Below the title, there are several input fields with placeholder text: "Title" (Isikan dengan nama CCTV nya), "IP Address" (Isikan ip publik nya), "Port" (Isikan Port CCTV nya), "User Name" (Isikan username untuk melihat cctv nya), and "Password" (Isikan Passwordnya). There is a "Get Type" button next to the text "unknown". Below that, there is an "Audio" section with a "MATI" button and a "Quality" section with a "Best" dropdown menu. At the bottom, there is a "Local Network Search" button with a magnifying glass icon. The very bottom of the screen has two buttons: "Close" with a close icon and "Save" with a save icon.
